# CALL FOR PAPERS

## International Symposium on Performance Analysis of Systems and Software – ISPASS-2003

The IEEE International Symposium on Performance Analysis of Systems and Software provides a forum for sharing advanced and well-established academic and industrial R&D work focused on performance analysis in the design of systems and software. Authors are invited to submit previously unpublished work for possible presentation at this conference. Papers are solicited in fields including the following:

- Benchmarking
- Workload characterization
- Simulation
- Analytical models
- Statistical approaches
- Metrics
- Power and thermal modeling
- Validation
- Characterization of emerging applications, systems and microarchitectures
- Case studies

Papers of no more than 20 double-spaced pages, including figures, are solicited. The cover page of each submitted paper should include paper title, brief abstract, list of keywords, full names of authors, affiliations, complete addresses, telephone numbers, and email addresses. Authors are requested to submit papers in Postscript or PDF format. Instructions for electronic submissions are available at: <http://ispass.org/submit.html>

### Important Dates

Deadline for submissions: September 30, 2002

Notification of acceptance: December 1, 2002
